

LockBox is an indoor bike cage that's small enough to fit into a standard parking spot and spacious enough to store 10 bikes with an ample aisle for easy access. Included are MaxRack Stands and Hangers, with solid steel lock bars for securing individual bikes. LockBox can be made in multiple sizes with standard-sized wire grid partitions. A hinged door, wire grid roof and mortise lock are standard.

- Heavy-duty, locking mesh enclosures for indoor use
- Ideal for bike rooms, parking garages, basements, dormitories, apartment and commercial buildings
- Small footprint fits in 1 parking space
- 10 MaxRack Stands included

LockBox (holds 10 bikes)

Designed for Indoor Parking

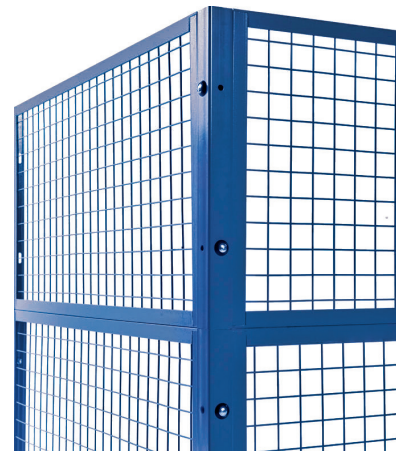

LockBox is designed to fit in one standard parking space or in any interior facility where locked bike parking is needed. In a commercial parking garage, LockBox at 10 bikes per space, can generate even greater revenue than a single parked car.

1 Parking Space = 10 Bikes

LockBox (w/Public Bike Repair Tools)

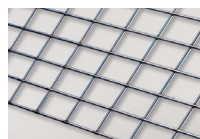

Detail (in Signal Blue)
