

Bike Lockers offer optimal protection from the elements, theft and vandalism. The 300 and 350 series bike lockers are a top choice of architects and government agencies. Constructed of durable fiberglass reinforced plastic, they won't rust, dent or chip and are impact and stain resistant. Choose from 8 different models, 7 colors and numerous options best suited for your site.

- Durable fiberglass reinforced plastic lockers for indoor and outdoor applications
- 300 Series lockers come preassembled
- Impact and stain resistant

Bike Lockers 302
