

**Newport** is a flexible and economical bike shelter that offers a variety of parking options. Small enough to be installed in a parking spot, the Newport is accessible from all sides and can also provide coverage for existing bike racks. To create a bike corral, add our low profile railing to sides and back. The Newport is modular and can be made to any length.

**Class 2 Bike Shelter:** Semi-enclosed, canopy style

- Can fit in 1 parking space
- Gable, Barrel or Flat roof styles
- Covers new or existing bike racks
- Accessible from all sides

Newport (Barrel Roof)
