

Solar USB Charging Port | Accessories

SPECIFICATIONS

Solar USB Charging Ports - An option that your customers are sure to appreciate is a transit shelter outfitted with Solar USB Charging Ports. Wiring is concealed in our shelter posts and connects our solar panel to dual USB ports mounted inside the shelter. Passengers can now charge their cell phones and tablets while waiting for a bus or train. Waiting for a bus was never so productive!

- *Waterproof*
- *Quick Charge*
- *For a complete solar package, combine with our solar light.*
