

Peanut is our most cost effective and space efficient shelter. It features a narrow footprint, suited to vertical bike parking and incorporates our MaxRack System. The Peanut is enclosed on three sides for extra weather protection and is manufactured in rustproof, anodized aluminum. The roof, side and rear panels are preassembled for quick and easy assembly.

Class 2 Bike Shelter: Semi-enclosed, canopy style

Also available: **Peanut Combo**, a multi-modal combination Bike Shelter/Bus Shelter. Available with or without bench.

- Narrow footprint fits our MaxRack Stand bike racks
- Hip, Gable, Barrel or Flat cantilevered roof styles
- Prefabricated in sections for quick assembly

Peanut - Single (Barrel Roof)
